- Health Scan+ to monitor overall wellbeing through a facial scan on the device in just 30 seconds;
- Choices+, shop health and wellness products and services at preferential prices.

3. I am a Global Private Banking customer as well as a member of / a registered dependent of HSBC HealthPlus, HASE Staff Medical Scheme, HSBC Life Benefits+ Medical Insurance Plan and/or HSBC Life Benefits+ Life Insurance Plan, am I going to have two Benefits+ accounts?

Existing HSBC HealthPlus, HASE Staff Medical Scheme, HSBC Life Benefits+ Medical Insurance Plan and/or HSBC Life Benefits+ Life Insurance Plan customers and their registered dependents will still be eligible for any existing services under their Group Medical and Group Life coverage. Two Benefits+ accounts will be available at their choice.

Login & Profile**1. How do I know my password to login for the first time?**

Open Benefits+ and click on 'Register now' to verify your account by providing your email address registered with Global Private Banking and date of birth (DOB). Then set up your password and verify your identity by entering the one-time password (OTP) sent to your email address and complete the registration.

2. What kind of password do I need to set?

We recommend users to have a strong password to secure their account. For creating your password, you are required to set a password with at least 8 characters and use a combination of uppercase, lowercase, and numbers.

3. I forgot my password, how do I reset or change it?

You may click on 'Forgot password' on the Login page; You may need to verify your identity by entering your registered email address or mobile number (if provided through Benefits+ > Profiles and Settings) and DOB. Once verified, you may set up your new password by using the OTP sent to your email address or mobile number.

4. What details do I need to log in to Benefits+?

You need to enter your registered email address, and the password that you have set for the first time.

5. How can I log out from Benefits+?

You may click on 'Profile' icon at the top right-hand corner at the home page and find the Log out button to log out.

6. Can I view Benefits+ in other languages?

Yes, you can click on the 'Profile' icon located at the top right-hand corner of the home page and find the language selection drop-down menu. You can then choose either English or Traditional Chinese.

7. Can I login by using my personal email address?

You can login with your email registered with HSBC Global Private Banking, however you can add another additional email address to log in to Benefits+. You need to verify the new email address before you can use it. Once it has been verified, you can log in with your personal email address using the respective password. You will receive all notifications sent via this email address.

8. Can I login using my phone number?

To link your phone number, go to the 'My details' section under the 'Profile' icon on the Home page. You need to verify your phone number before you can use it. Once it has been verified, you can log in with your phone number using your existing password.

9. After setting or changing my password, why is my account not activated?

To enhance the security of the system, your account will only be activated after it has been verified with the OTP sent to your email address when you set up or change your password. In case of any unauthorized changes to the password, you will not be able to access Benefits+.

10. How do I activate my account by OTP?

After you log in with a new password, the system will require you to input One Time Password (OTP) which is sent to your email.

11. What should I do when my OTP expires?

You could request the system to resend new OTP after 30 seconds since your previous request.

12. Why does the system inform me that my OTP verification is locked?

Because you reached the maximum wrong verifications per day, the system will no longer allow you to verify OTP or to request a resend of the OTP. You need to wait for 24 hours to request another OTP or call our customer care service.

13. Can I use the Internet browser to complete my registration process and login to the web version of Benefits+?

It is advisable to use Google Chrome to complete the registration process and access Benefits+ web version on your computer / laptops.

Health Scan+

1. What is Health Scan+?

Health Scan+ is a wellness management tool that incorporates NuraLogix Corporation's DeepAffex technology. It uses the camera on the user's mobile device to perform a 30-second facial scan, then analyzes the light and translucency of the skin captured in the scan to detect changes in blood flow. Health Scan+ is not intended for any medical purpose. Based on the calculations it makes, it will display a few Key Health Parameters on the Benefits+ mobile application along with personalized health and lifestyle tips.

2. How can I take a measurement?

To take a measurement, open Health Scan+ on the 'Lifestyle' page. After reading and agreeing to the terms and conditions, you will be directed to the measuring screen. Follow the instructions below:

- a. Choose a well-lit area and sit comfortably. Make sure the phone and your face are on the same level.
- b. Make sure the light is evenly distributed across your face for the best results. Keep your face centred within the outlines throughout the measurement.
- c. Once the measurement has started, stay still for 30 seconds until the process is complete.

3. Is Health Scan+ a medical device?

Health Scan+ is strictly intended for informational and educational purposes, and for promoting general wellness. Health Scan + is not a medical device and not intended for any medical purpose. The measurements and information provided to you are not a substitute for professional medical advice, nor are they meant as diagnosis or prescriptions for treating, curing or preventing any disease, ailment or injury. Should you have any health-related questions, please consult a doctor or medical professional.

4. Will my photos or video be saved or sent elsewhere?

We care about your privacy. Health Scan+ will not save your images or videos on your device or transmit them as part of the data for calculating the results.

5. What personal information do we collect?

Through Health Scan+, we collect biometric and health information, including your facial blood flow, age, weight, height and gender.
